I am an owner/operator independant trucker, operating primarily the Atlantic seaboard from New England to Florida and west to Indiana. Iam a XM radio subscriber, that means I pay a monthly fee for the service. In addition to being able to listen to music and news that I choose, I have the ability to hear traffic and weather for metro areas that are my near or immediate concern. I can't be hunting around the dial or waiting for traffic reports. Despite some beliefs, driving truck requires full concentration, particularly in metro areas. I urge you to reject NAB's petition 04-160. If this petition is adopted, I won't become one of their listeners, I want radio without the nonsense.
